WELCOME TO ACTIVE FABRICATIONS

Head Office: 65 Logan River Rd, Beenleigh, 4207

Over 30 Years

Over 30 years ago, Active Fabrications commenced operations.

It was the crazy era of the 1980s, when people were wearing brightly coloured clothing and crazy hair.

It was the year Bob Hawke won the election and became Prime Minister that Active Fabrications first opened their doors.

Founder, Brian Dossett, identified a gap in the market and gave it his best shot. He started manufacturing trailer axles, as well as hiring out tilt wall props to builders.

The word got around and Active Fabrications started selling an extensive range of trailer spare parts, including: trailer springs, trailer brakes, trailer bearings, trailer hubs and drums, trailer lights, boat trailer parts and camper trailer accessories. It The business was up and running and has continued to this day.

Northern Branch: 1/856 Gympie Rd, Lawnton, 4501

For every purpose your trailer has in life, we have the parts to make it work.

Quality Products

The first home of Active Fabrications was a small factory in Chetwyn Street in Loganholme. It wasn't long until the trailer supply business needed to move to bigger premises.

The business had been operating for nearly a decade when they found the perfect location to service their growing trailer parts superstore. 63 Logan River Road at Beenleigh in Queensland, Australia was the perfect site. From the new location, Active Fabrications were turning trailer axles and boat trailer axles on CNC lathes, and building upon its reputation as a supplier of quality trailers parts at affordable prices. Active established a supply deal with a manufacturer in Melbourne to source top-quality trailers for their growing customer-base in Brisbane. The trailers were put on display out the front of the factory on Logan River Road and it wasn't long before they were snapped-up promptly by buyers looking for a quality trailer at an affordable price.

Great Service

The business continued to grow upon its range of trailer accessories, boat trailer rollers, trailer wheels, and other trailer spares. Active Fabrication's reputation for quality, affordable prices and great service was spreading. Active developed a strong following of repeat customers in retail and wholesale sales. Demand for trailer suspension systems, including trailer mudguards, boat rollers and boat trailer lights, increased significantly. Active Fabrications expanded their trailer parts portfolio further and needed to take on additional factory space to cater for the increased product range. The company acquired two adjoining factory spaces to their premise at 65 Logan River Rd, Beenleigh, moving their distribution and retail centre to the new locations.

Expanding Range

Active Fabrications now occupies five factory warehouses on Logan River Road. They are expanding their range every year. If you need trailer kits, trailer guards, boat trailer wheels, boat trailer skids or any type of boat trailer spares or camper trailer parts, we're your trailer part superstore. You can always rely on Active Fabrications having exactly what you're looking for. Part of our mission is to remain well informed, innovative, and ready to help customers find solutions with trailers.

Global Manufacturers

In 2010 Active Fabrications negotiated the services of a machining and manufacturing plant in China. It was one of the most significant moves in the company's history. While they had an extensive range of quality suppliers in place for a large portion of their product lines, Active was looking to secure a permanent manufacturer for some of their product lines to ensure a high-standard of quality across all their trailer accessories and trailer parts.

If you're looking for trailer lights, boat rollers, boat winches, wheels, springs, couplings, hubs, axles or anything else for your trailer, Active Fabrications can take care of you.

COUPLINGS - The important link

We'll Keep You Connected

The importance and security of the connection between your vehicle and whatever you tow can't be understated. We have a great range of Australian Standards Approved couplings to help you and your trailer get connected - and stay that way.

2000KG 50MM 2 HOLE COUPLING

- CTA-060703
- Rated to 2000kg
- Fits 50mm Ball
- Complies with Australian Standard

Product Code	Type	Finish
301	2 Hole	Painted
301B	2 Hole	Dacromat

2000KG 50MM 3 HOLE COUPLING

- CTA-060706
- Rated to 2000kg
- Fits 50mm Ball
- Complies with Australian Standard

Product Code	Type	Finish
301A	3 Hole	Dacromat

COUPLINGS

2000KG OVER-RIDE COUPLING

- CTA-060707
- Rated to 2000kg
- Fits 50mm Ball
- Complies with Australian Standard 4177.3

Product Code	Finish
305G	Dacromat

2000KG OVER-RIDE COUPLING WITH HAND BRAKE

- CTA-060707
- Rated to 2000kg
- Includes 308 Hand Brake

Product Code	Finish
302	Dacromat

2000KG OVER-RIDE COUPLING WITH 3/4" MASTER CYLINER AND BRACKET

- CTA-060707
- Rated to 2000kg
- Includes 3/4 Master Cylinder & Bracket

Product Code	Type	Finish
304	Standard Spring	Dacromat

3500KG 50MM ELECTRIC COUPLING

- CTA-060708
- Rated to 3500kg
- Fits 50mm Ball
- Complies with Australian Standard 4177.3

Product Code	Finish
313	Dacromat

COUPLINGS

4500KG 70MM ELECTRIC COUPLING

- CTA-060782
- Rated to 4500kg
- Fits 70 mm Tow Ball
- Complies with Australian Standard 4177.3

Product Code	Finish
314	Dacromat

AL-KO 50MM 3500KG OFFROAD BALL COUPLING

- CTA-060160
- Rated to 2000kg
- Complies with Australian Standard

Product Code	Finish
ALKO619350	Zinc

CRUISEMASTER 3500KG DO35 V3 OFFROAD COUPLING

- CTA-050100
- No Handbrake or with Handbrake models
- Includes mounting bolts
- Complies with Australian Standard

Product Code	Type
DO35	No Handbrake
DO35HB	With Handbrake
DO45	4.5 Tonne

COUPLINGS

2000KG 50MM RHS COUPLING

- Rated to 2000kg
- Fits 50mm Tow Ball

Product Code	Finish
405	Painted

6000KG WELD ON RING COUPLING

- Rated to 6000kg

Product Code	Finish
512	Painted

5000KG RIGID MOUNTED PINTLE HOOK 75MM

- Rated to 5000kg

Product Code	Finish
602	Painted

ADR 10 TONNE FIFTH WHEEL COUPLER

- Rated to 10,000kg
- Suits 3" Ball

Product Code	Finish
710A	Painted

COUPLINGS

DUAL PURPOSE PINTEL HOOK WITH 50MM BALL

- Hook rated to 5T
- Ball rated to 3.5T
- Replacement ball available

Product Code	Type	Finish
601	Assembly	Painted
601A	Replacement Ball	Painted

4500KG 75MM FIXED RING COUPLING

- Rated to 4500kg
- Complies with Australian Standard 4177.3

Product Code	Finish
504	Painted

2000KG ZINC OFF-ROAD COUPLING AMERICAN STYLE

- Rated to 2000kg
- Specified for Off-road use

Product Code	Finish
701C	Zinc

COUPLING ACCESSORIES

50MM 3500KG CHROME TOW BALL

- Rated to 3500kg
- Complies with Australian Standard

Product Code	Finish
1417	Chrome

BLACK PVC TOWBALL COVER

- Protects tow ball

Product Code	Finish
1417C	PVC

50MM 3500KG LONG SHANK CHROME TOW BALL

- Rated to 3500kg
- Complies with Australian Standard

Product Code	Finish
1418	Chrome

50MM 2500KG HIGH RISE TOW BALL

- Rated to 2500kg
- Complies with Australian Standard

Product Code	Finish
1438	Chrome

70MM TOWBALL 38KN

- Rated 4-500Kg
- CTA 060848

Product Code	Finish
315	Zinc

3" BALL

- Suit 10 Tonne Fifth Wheel Coupling

Product Code	Finish
711A	Zinc

MECHANICAL HAND BRAKE METAL PLATE SUIT AL-KO OVER- RIDE COUPLING

Product Code	Finish
308M	Zinc

AL-KO PUSH BUTTON HAND BRAKE LEVER SIDE MOUNT

Product Code	Finish
704	Zinc

1222	9/16" Unf Wheel Stud
1224	9/16" Unf Wheel Stud Long Knurl
1221	9/16" Unf Wheel Nuts
1221A	9/16" Mag Nut (Closed End)

5/8" STUDS & NUTS

Product Code	Description
1220	5/8" Unfwheel Stud
1223	5/8" Unf Wheel Stud Long Knurl
1219	5/8" Wheel Nut

AXLES - All Australian Made

Our Axles

For over 30 years Active Fabrications have been producing Axles to the Trailer Industry. From humble beginnings to now operating 4 CNC lathes using only Australian made steel we produce thousands of Axles each and every month. All of our Axles are manufactured to your specifications, length, bearing turn, weight rating it is all available to suit your exact needs.

Standard, Galvanised and Independent Rubber Axles are all available to the finest tolerances to suit your next project, call today.

All galvanised axles are welded after machining - thus meaning not the entire axle is galvanised after assembly.

Straight Brake Axles

9" HYDRAULIC BRAKE AXLES

- Complies with Australian Standard

Product Code	Axle Size	Finish	Bearing Type	Capacity	Stud Pattern
1901/S	39mm Round	Steel	LM	750kg	HT,HQ,C/DORE,FORD,LC5,LC6
1902/S	40mm Square	Steel	LM	750kg	HT,HQ,C/DORE,FORD,LC5,LC6
1904/S	45mm Round	Steel	SL	1400kg	HT,HQ,C/DORE,FORD,LC5,LC6
1903/S	45mm Square	Steel	SL	1400kg	HT,HQ,C/DORE,FORD,LC5,LC6

AXLES

9" MECHANICAL DRUM BRAKE AXLES

- Complies with Australian Standard

Product Code	Axle Size	Finish	Bearing Type	Capacity	Stud Pattern
1907/S	39mm Round	Steel	LM	750kg	HT,HQ,C/DORE,FORD,LC5,LC6

SPRINGS

HANGERS AND ACCESSORIES

Our Springs

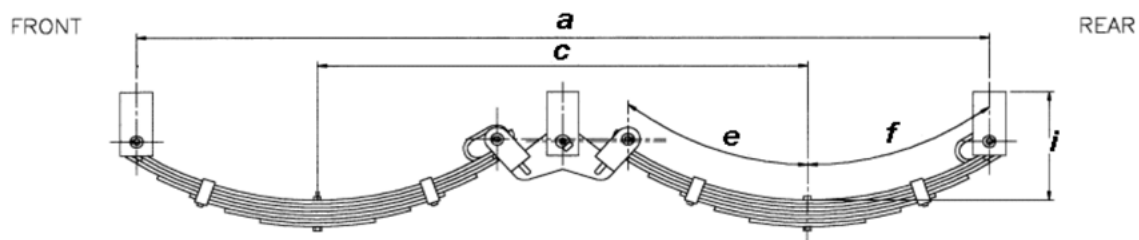

Our springs have been sourced from the same manufacturer since 2011. We know our springs are not the cheapest, but we also know that their quality makes them great value.

We are so confident in their quality that we have tested them to twice their rated capacity with no loss of camber.

That's why we believe they are excellent value for money.

SEE OUR WEB SITE FOR HELPFUL FITTING INSTRUCTIONS

A = 1570MM
C = 870MM
I = 200MM

Disclaimer: As spring rolls can vary, please stretch springs out to their outer points before welding at suggested measurements to ensure for a correct fitting.*These measurements are guide only*

SPRINGS

ROCK ROLLA SPRING SETS

- U-bolt and fish plate kit sold separately.
- A fitting guide is available on our web site

Product Code	Description
1003A	2000kg Tandem Rocker Rolla Spring Set - No Ubolt Kits
